

Name:

# Python rock, paper, scissors

Draw arrows matching the MakeCode blocks to their equivalent in Python code.

```
1 from microbit import *
2 import random
3
4 while True:
5     if accelerometer.was_gesture('shake'):
6         random_number = random.randint(1,3)
7         if random_number == 1:
8             display.show(Image.SQUARE_SMALL)
9         elif random_number == 2:
10            display.show(Image.SQUARE)
11        else:
12            display.show(Image.SCISSORS)
```
