

Name:

Python step counter

Draw arrows matching the MakeCode blocks to their equivalent in Python code.

 Python step counter

```
1 from microbit import *
2 steps=0
3
4 while True:
5     if accelerometer.was_gesture('shake'):
6         steps += 1
7         display.show(steps)
```
